

FHA 203(k) REHABILITATION MORTGAGE INSURANCE PROGRAMS

These programs are specifically designed for those who wish to repair, improve, or upgrade an owner-occupied home they own or would like to buy.

MORE ABOUT FHA 203(k)

The FHA 203(k) allows homeowners to finance rehab costs within a single mortgage — rather than having to obtain a separate loan to finance the cost of repairs or walking away from a home because you don't have the cash for home improvements. This program covers one- to two-family homes as well as FHA-approved condominium projects, planned unit developments (PUDs), and manufactured housing.

There are two different 203(k) programs: Standard and Limited. Either program can be used in conjunction with the FHA GNND and FHA \$100 Down.

STANDARD 203(k)

The Standard 203(k) may be used to purchase or refinance a home that needs remodeling and/or structural repairs. There is a minimum rehabilitation cost of \$5,000 and the use of a 203(k) consultant is required.

PROGRAM HIGHLIGHTS

- Structural changes are allowed
- \$5K minimum and no maximum repair amount
- Landscaping and hardscaping allowed
- Max completion time: 12 Months

LIMITED 203(k)

The Limited 203(k) may be used to purchase or refinance a home that needs minor remodeling and non-structural re-pairs not exceeding \$75,000. The use of a 203(k) consultant is not required and there is no minimum rehabilitation cost.

PROGRAM HIGHLIGHTS

- Minor remodeling
- No minimum and up to \$75K in repair amount
- HUD consultant is not required
- Max completion time: 9 Months
